

TECHNICAL DATA SHEET

GRODAL TUB 3000

Copper tube drawing fluid

DESCRIPTION

Grodal tub 3000 is synthetic oil specifically designed for wire drawing and wiredrawing of copper pipes. It is greasy in nature and free from mineral oils. It is quite suitable for inner drawing application. It is not containing any sulphur or chlorine esters.

TECHNICAL DATA

Colour and Appearance	:	Viscous liquid
Typical Viscosity @ 40 °C	:	3000 cSt.
Base material	:	Polymer
Sulphur	:	None
Chlorine	:	None
Fatty matter	:	None
Solubility	:	Soluble in organic solvents
Water solubility	:	None
Ignition point	:	Above 180°C
