Grauer and Weil (India) Ltd display impressive products at Wire India 2018

City Air News Author(s):

Mumbai: Grauer and Weil (India) Ltd participated in Wire India 2018 – the international Exhibition for the Wire and Cable Industry -- held from November 27 to 29 in Mumbai. This was the seventh edition of the expo that deals with materials, machinery and equipment for the manufacture of wires and cables, optical fibre cables, screws, springs, wire ropes and other wire products.

Grauer and Weil (India) Ltd displayed a host of stellar products mostly related to Lube & engineering. The company offers a wide range of specialized lubricants and oils in varied industrial applications under the brand name of GRODAL. With the use of latest and state of the art technologies, the products are designed to give high performance and provide cost effective solutions. All products are environment friendly and conform to stringent international standards and assure optimum quality to end users. Grauer and Weil (India) also manufactures and markets a wide range of engineering plants and auxiliary equipment tailor-made to meet the specific surface finishing requirements of every industry.

Wire India is known to be the most important and recommended wire and cable show where attendees have access to a wide and superior quality of cables which are required in all sectors like electrical, telecommunication, building and construction, transportation and manufacturing. Business discussions and professional activities which are part of the expo have received huge appreciation from experts who have visited the show over the years. The exhibition aims at bringing India's economic development to a higher level and its objective has increased the importance of the show in all over the world. Participants receive incredible business opportunities since an advanced range of products are demonstrated which have attracted attention and investment from foreign delegates as well. The conference provides opportunity for exchange and for building and expansion of business contacts.

Speaking about the expo, Yashwant Mahajan, DGM, R&D (Lubes), Grauer & Weil (India) Ltd, "Wire India is an impressive platform where various stakeholders from the industry meet to exchange knowledge and create networking opportunities. We are happy with the response our stall received and we could also meet many other experts from the industry to share opinions and knowledge."
