

# EFFLUENT TREATMENT PLANT

With an experience of over 60 years, Grauer & Weil is the largest producer of surface finishing chemicals, plants and equipments in the Indian subcontinent

Growel's Engineering division, located at Pune, manufactures a wide range of surface finishing plants, waste water treatment plants and recycling plants, tailor-made to meet the specific surface finishing requirements of every industry. Over 700 plants of varied types have been successfully commissioned worldwide.

Over past 2 decades Growel has completed innovative ETP projects with ZLD solutions for several esteemed customers including BARC, Roca, IISC Bangalore, AT & S Mysore, Larsen & Toubro, Sterling Tools, Mico Bosch, Hettich, Bharat Wires Ropes to name a few.

Growel has successfully introduced many specific solutions in different sectors and have internal expertise to handle water treatment and waste water treatment with recycling of treated waste water requirements.

With over 150 projects in the field of water and wastewater we are a leading player in the environment segment. Our engineering and environment division has over 50+ members who are geared to undertake and execute turnkey projects.

We provide value added technological solutions for water & waste water treatment and recycle systems in different industries.

SINCE 1957

● WATER SAVED IS MONEY EARNED

► *Our Offerings*

**EFFLUENT TREATMENT PLANTS**

Primary | Pretreatment | Secondary biological | Tertiary

**RECYCLE PLANTS**

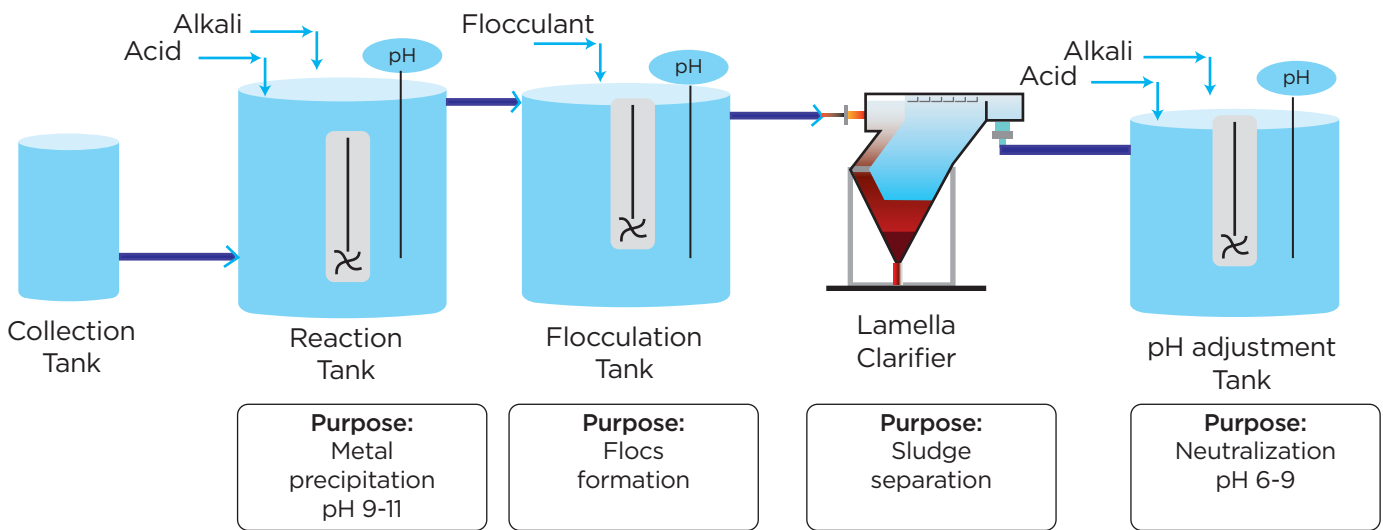

Ultra filtration systems | Reverse osmosis systems

**WATER TREATMENT PLANTS**

Resin based systems | Membrane based systems

● OUR APPROACH TO TOTAL SOLUTION

**ETP SCHEME**

ETP & Recycling Plant

Effluent Treatment Plant

Effluent Collection Tanks

D M Plant

Ultra Filtration Plant

R O Plant
