

ELECTROPHORETIC LACQUER

TRUST THE LEADER IN SURFACE FINISHING

ELECTROPHORETIC LACQUER

Growclear GWC

- Cost effective.
- Water based acrylic electrophoretic lacquer.
- Low build deposit system.
- Variety of colour options.
- Proven gold finish.

Growclear 6022/6038/6055

- Ultra high performance Polyurethane resin based processes.
- High gloss.
- High solids -60%- lower consumption.
- Double acetone rub test: Passes >3000 cycles.
- Deposit hardness: 2 - 4 H.
- Low temp curing (125 - 140°C) is feasible.

Growclear Theta Plus

- Medium and High Build capabilities.
- Exceptional levels of resistance to perspiration.
- Excellent corrosion & UV light weathering resistance.
- High performance Hardness & Acetone Rub properties.
- Superior abrasion / wear resistance.

Growclear LB 40

- Medium build electrophoretic lacquer.
- Outstanding ductility & scratch resistance.
- Excellent chemical resistance.
- Most suited for antique finishes when used with Growclear GWC.

Growclear XL 601

- Electrophoretic lacquer with Polyurethane resin.
- Outstanding level of film clarity & flow.
- Excellent hardness and superior perspiration resistance.
- Non yellowing even at higher baking temperatures.
- Good resistance to acetone.

Electrophoretic Colour Dyes

- Growclear Golden dye & Growclear range of colour dyes.
- Produces attractive colour shades when used with our range of electrophoretic lacquers.
