Core Growth at 6-mth High in April Aided by Coal, Power

On-year growth of 8.4% in Apr from 4.9% in March & 6.2.6% in Apr 2021

Our Bureau

New Delhi: Driven by coal, electricity and refinery products, India's eight infrastructure sectors grew 8.4% from a year earlier in April - the fastest pace in six months, according to government data released on Tuesday. The growth was 4.9% in March and 6.2.6% in April 2021.

ministry said in a statement. The core sector comprises 40.2% of the weight of the index of industrial production (IIP).

"Steady improvement in the electricity supply is likely to be maintained and demand from the industrial sector" said the ministry.

Output of coal rose 38.8% on-year, while that of refinery products increased 3.2%. Electricity generation grew 10.7% and fertilizer production expanded 8.7%. However, production of steel shrank 0.7% and that of crude oil contracted 0.9%. Meanwhile, the growth rate for January 2022 is revised to 4% from the previously reported provisional level of 3.7%, the com-

FY22 Fiscal Deficit Improves to 6.71%, Beats RE

STRONG REVENUE MOP-UP In absolute terms, fiscal deficit at ₹15.86 Lcr; better show despite higher spend on food & fertilizer subsidy

Our Bureau

New Delhi: Stronger revenue collection helped the Centre contain its fiscal deficit for FY22 at 6.71%, a tad lower than the revised estimate of 6.9% presented by it at the time of the budget, despite higher expenditure in terms of food and fertilizer subsidy.

According to data released by the Controller General of Accounts on Tuesday, fiscal deficit in absolute terms was ₹15.86 lakh crore. The finance ministry in February had estimated the deficit at ₹15.91 lakh crore or 6.9% of GDP.

However, economists have cautioned that the fiscal deficit target of 6.4% of GDP for 2022-23 may face risks on account of revenue loss arising from excise duty cuts on petrol

Exceeding Expectation

Fiscal Deficit for FY22 was 6.71% of GDP

In absolute terms it was ₹15.86 lakh crore

This lower than revised estimate of 6.9%

Revenue receipts was at ₹21.68 lakh crore

Net tax revenue was at ₹18.2 lakh crore

Expenditure up marginally at ₹37.94 lakh crore

Capex was at ₹5.93 lakh crore, lower than RE

the deficit in non-debt capital receipts and higher revenue expenditure".

Going forward, Nayar maintained that there are several risks to the fiscal deficit target of ₹16.6 lakh crore for 2022-23, emanating from the revenue loss to the Centre on account of the excise duty cut, lower-than-budgeted transfer of the RBI's surplus, and the need for additional spending on food, fertilizer and LPG subsidies through the year.

Tax receipts during the fiscal year were at ₹21.68 lakh crore against the revised estimate of ₹21.66 lakh crore. The total expenditure too was marginally higher at ₹37.94 lakh crore against the RE of ₹37.7 lakh crore, the data said. The revenue deficit at the end of 2021-22 was 4.37%.

For the last financial year, the government had initially pegged the fiscal deficit at 6.8% of the GDP in the budget presented in February 2021.

WTO: India to Oppose Moratorium on Ecomm Customs Duties

Our Bureau

New Delhi: India will oppose the continuation of a moratorium on customs duties on e-commerce trade at the upcoming ministerial of WTO and push for putting an end to it as it is adversely impacting the developing countries, an official said.

developing countries and other developing countries, such as Sri Lanka and Indonesia, have supported that stand," the official said.

WTO members have agreed not to impose customs duties on electronic transmissions since 1998 and the moratorium has been periodically extended at successive ministerial conferences. The 12th MC of WTO will be held from June 12-15 in Geneva. The UN Conference on Trade and Development has estimated the potential tariff revenue loss for developing countries every year at \$10 billion against only \$289 million for high-income countries.

India and South Africa have been making submissions on the adverse impact of the moratorium on deve-

Govt Clears GST Compensation Dues till May 31

Our Bureau

New Delhi: The Centre on Tuesday said it has cleared the entire GST compensation payable to states till May 31, by releasing ₹96,912 crore.

The centre added that of this, ₹25,000 crore is released from the GST compensation fund and the balance ₹71,912 crore is being released by the Centre from its own resources pending collection of cess. "This decision has been taken despite the fact that only about ₹25,000 crore is available in the GST Compensation Fund. The balance is being released by the Centre from its own resources pending collection of cess," finance ministry said.

This decision was taken to assist states in managing their resources and ensuring that their programmes, especially capital expenditure is carried out successfully. In the fiscal, the ministry said.

Of the total compensation released, ₹17,973 crore is towards April and May dues, ₹21,222 crore towards February-March dues and ₹16,717 crore is the balance of compensation payable up to January 2022.

With this payment to states till May 2022, only compensation for June 2022 would remain, the ministry added.

When GST was introduced in 2017, states were assured of compensation for the loss of any revenue arising on account of implementation of GST for a period of five years. The centre added that bi-monthly GST compensation to states for the period 2017-18, 2018-19 was released on time out of the Compensation Fund. The government also added that as the states' projected revenue has been projected with a 14% compounded growth whereas the cess collection did not increase in the same proportion, COVID-19 further increased the gap between projected revenue and the actual revenue receipt including reduction in cess collection.
